

BOOK REVIEW

Proceedings of the XIII International Congress of Entomology, Moscow, 2-9 August, 1968. 3 vols. Published by the Academy of Sciences of the USSR All-Union Entomological Society. 1972.

Available from International Scholarly Book Services, Inc., P. O. Box 4347, Portland, Oregon 97208; complete set \$59.00 (only 700 copies were allocated to non-socialist countries).

Papers appear in the original language in which presented (i.e., primarily English and Russian).

Volume I (581 p.)

Committees and Officers
List of Members
Presidential address
Papers delivered at the final plenary session

Section 1: Systematic, Faunistic, Geographical Distribution
Section 2: Morphology, Phylogeny, Paleontology
Section 3: Genetics and Cytology
Section 4: Physiology (including Behavior), Biochemistry
Section 5: Ecology, Biocoenology, Conservation of Nature

Volume II (424 p.)

Section 6: Biophysics and Morpho-physiological Mechanisms of Insects
Section 7: Pathology of Insects and Acarina
Section 8: Biological Control
Section 9: Chemical Control and Toxicology
Section 10: Agricultural Entomology and Acarology

Volume III (494 p.)

Section 11: Forest Entomology
Section 12: Medical and Veterinary Entomology and Acarology
Section 13: Beneficial Insects

Symposium A: Systematics, Ecology and Phylogeny of Odonata, Ephemeroptera, and Trichoptera.

Symposium B: Systematics and Evolution of Chelicerata.

Symposium C: Ecology and Bionomics of ants.

Symposium D: Soils Arthropods.

Symposium E: Chemical and Radiation Sterilization in Pest Control.

Symposium F: Insects as Vectors of Virus Borne Plant Diseases.

Author Index to Vol. I-III.
